

NATANAEL SIJABAT

FULLSTACK WEB DEVELOPER | FRONT END DEVELOPER

Malang, Indonesia |  | 

PROFILE SUMMARY

I am a recent graduate in Informatics Engineering from Universitas Haji Ahli Maritim Raja. Despite being a recent graduate, I have collaborated with several companies and organizations such as PT Pelabuhan Kepri and the Islamic Student Association.

I am highly passionate about IT and programming, particularly in web development. I also have a strong inclination towards learning new things, especially in the field of technology and its advancements.

I have demonstrated my interest in web development by studying and exploring various technologies commonly used in the field, such as PHP, JavaScript, and TypeScript, PostgreSQL, MySQL, which I have applied to my projects.

WORK EXPERIENCE
